

## 兔抗 ABCE1 多克隆抗体

中文名称：兔抗 ABCE1 多克隆抗体

英文名称： Anti-ABCE1 rabbit polyclonal antibody

别名： RLI; OABP; ABC38; RNS4I; RNASEL1; RNASELI

抗原： ABCE1

储存： 冷冻（-20℃）

宿主： Rabbit

相关类别： 一抗

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

**Background:**

The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the OABP subfamily. Alternatively referred to as the RNase L inhibitor, this protein functions to block the activity of ribonuclease L. Activation of ribonuclease L leads to inhibition of protein synthesis in the 2-5A/RNase L system, the central pathway for viral interferon action. Two transcript variants encoding the same pr

	rotein have been found for this gene.
<b>Applications:</b>	ELISA, WB
<b>Name of antibody:</b>	ABCE1
<b>Immunogen:</b>	Fusion protein of human ABCE1
<b>Full name:</b>	ATP-binding cassette, sub-family E (OABP), member 1
<b>Synonyms :</b>	RLI; OABP; ABC38; RNS4I; RNASEL1; RNASELI
<b>SwissProt:</b>	P61221
<b>ELISA Recommended dilution:</b>	2000-5000
<b>WB Predicted band size:</b>	67 kDa
<b>WB Positive control:</b>	NIH/3T3 and SKOV3 cells, human ovarian cancer tissue
<b>WB Recommended dilution:</b>	500-2000
