

兔抗 CHKA 多克隆抗体

中文名称：兔抗 CHKA 多克隆抗体

英文名称：Anti-CHKA rabbit polyclonal antibody

别名：choline kinase alpha; CK; EK; CHK; CKI

相关类别：一抗

抗原：CHKA

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	The major pathway for the biosynthesis of phosphatidylcholine occurs via the CDP-choline pathway. The protein encoded by this gene is the initial enzyme in the sequence and may play a regulatory role. The encoded protein also catalyzes the phosphorylation of ethanolamine. Two transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	CHKA
Immunogen:	Synthetic peptide of human CHKA
Full name:	choline kinase alpha
Synonyms:	CK; EK; CHK; CKI

SwissProt:	P35790
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and Human tonsil
IHC Recommend dilution:	50-100
